

Parenting in a
Pandemic...

Is your 11-16 year
old struggling
during lockdown?

Looking for ways
to cope side by side?

We can
help.

If you are a parent or carer living in Leicester, Leicestershire or Rutland, you and your young person (aged 11 – 16 years) can access our FREE online group sessions.

The set of 4 sessions for parents and 4 sessions for young people complement each other so you can start to make positive changes quickly. The hour-long sessions are delivered via Zoom and we will explore...

- Communicating as a family
- Dealing with difficult feelings and emotions including worry, anxiety and anger
- Promoting good mental health
- Ways to reduce difficult behaviour

The sessions will give you and your young person the opportunity to...

- Discover you are not the only ones dealing with these problems
- Work together with others to share ideas and find solutions that work for you
- Become more confident and less stressed
